Attention: CAIR Reporting Extension

Gentlemen:

CasChem Inc. has received within the past thirty (30) days notification from our suppliers of Toluene Diisocyanate that we are required to submit a CAIR reporting form by July 6, 1989. The CAIR form was requested by CasChem from the EPA immediately after the notifications were received, however the forms did not arrive at our facility until April 24, 1989.

Upon examination it was estimated that 230+ manhours will be necessary to complete the CAIR form. Our regulatory affairs staff will be completely occupied between now and August 1, 1989 preparing and filing SARA 313 reports and a NPDES permit renewal application. An additional ninety (90) day extension for filing the CAIR report form is thereby respectfully requested.

If further information is required please contact me at the above address or by telephone at (201) 858-7900.

Sincerely,

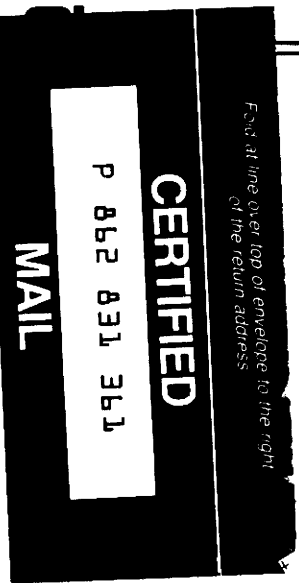

Michael J. Fowler  
Safety/Health and  
Environmental Manager
